## EXPERIENCE

### THE CODING BOOTCAMP AT UCLA EXTENSION | JUNE 2016 - PRESENT

- Turn-Based Role Playing Game (RPG)
  - A RPG game based off of the Marvel Comics Avengers. Allows the user to select a character to attack with and a character to attack. The game dynamically changes health points, with attacks and counter attacks. Has win and lose scenarios.
  - <https://murmuring-crag-49988.herokuapp.com/>
- NBA Hangman Game
  - In this vanilla javascript coded hangman game, users try to guess team names by selecting one letter at a time.
  - <http://safe-ocean-55171.herokuapp.com/>
- Eat the Burger
  - An app that “eats” burgers and allows the user to add any burger to a list. Uses MySQL database to store the burger names, JavaScript and Handlebars for the technologies used to create the app.
